Q13 - What did you like best about the course?

Response Rate:	100.00% (4 of 4)
1	The fact that it was offered in the evening time.
2	Statistical analysis solving presenting the assignment with good problem solving mechanism
3	Instructor was very knowledgeable on the subject and was fair in grading.
4	I love how the lectures are recorded. I work 3rd shift so on down times I would listen to the lecture when working out practice problems. by the end of the week, I had a way better understanding of the week topics.

Q14 - How would you improve the course?

Response Rate:	75.00% (3 of 4)
1	Make it hybrid.
2	I'd recommend more up to date and straightforward instructions on installing Rattle on both Windows and Mac systems. Also, using "Flip" for a presentation was not the ideal platform to do so.
3	I don't feel there is a need to have something due every week. especially if this school is highlighting, they work with individuals who are trying to advance their career while still working full time. I don't understand why don't we have a few days off before finals? I'm just coming from my undergrad experience. They gave us at least a week to get final work in and study for finals, then the following week is final week. I feel implanting these two things would increase success rate in each program of study.

Q25 - What did the instructor do well?

Faculty:	Brian Weikel
Response Rate:	75.00% (3 of 4)
1	Mr. Weikel was an overall delight. From his energy in each class, to his overall knowledge in this field. I like the way he challenged us to figure out the problem instead of just giving us the answer and advising us how he was able to get there.
2	Gave enough practice quiz.
3	Explain about the concepts and giving some time to do hand on experience in the class about problems and motivating to read different concepts with different textbooks

Q26 - How could the instructor improve?

Faculty:	Brian Weikel
Response Rate:	75.00% (3 of 4)
1	To give more breaks during class time
2	Online class for this course is not good
	Better offline course will be best for this course
	Nothing to improve
